ABOUT ME

Passionate and results-driven Full-Stack Web & Mobile Developer with a strong background in frontend, backend, and UI/UX design. Proven experience delivering scalable, secure, and user-friendly applications across web and mobile platforms. Adept at turning business goals into technical solutions with clean, maintainable code. Excels in startup and fast-paced environments, with a deep focus on usability, performance, and visual polish.

WORK

Full Stack Developer 2024 – 2025

LCPD (School Management System Development)

- Led the end-to-end development of a School Management System featuring student records, attendance, grading, and communication tools. Delivered a responsive, SEO-optimized platform with custom branding. Improved administrative efficiency by automating manual workflows. Enhanced user experience across devices to increase engagement.

Junior Developer Intern 2025- 2025

Enjema Integrated Software Service Limited

- Gained practical software development experience in a fast-paced consultancy and startup environment. Contributed to live client projects alongside senior developers, strengthening skills in coding, testing, and end-to-end software lifecycle management.

IT 2025- 2025

Lincoln College Of Science Management & Technology

- Worked on real-world projects including Lincpay, contributing to back-end development with Node.js and PHP, and building dashboards with React and Vue.js. Improved UX and visual design of the school website using HTML, CSS, JavaScript, and PHP. Also enhanced a module for the R&D department, strengthening skills in full-stack development and performance optimization.
