Bachelor of Computer Science

NATIONAL OPEN UNIVERSITY OF NIGERIA

Currently pursuing the degree.

SELECTED BUILDS + CONTRIBUTIONS

BR-013

KoraGo

PERSONAL BUILD / COMMERCE MARKETPLACE

Nigeria-focused marketplace concept spanning food, groceries, retail and courier delivery. Project dossier includes supplied interface artifacts and linked source/demo where verified.

BR-014

Relay

PERSONAL BUILD / AI SUPPORT WORKSPACE

Full-stack support workspace combining ticket operations, customer context, knowledge retrieval and human-reviewed AI drafting.

BR-001

SwiftSlot

PERSONAL BUILD / BOOKING SYSTEM

React and TypeScript frontend with Node, Express, TypeScript, Sequelize and MySQL. Engineering focus includes timezone handling, unique slot constraints, idempotency, transactional protection and UTC persistence.

BR-017

Fieldnote

PERSONAL BUILD / OFFLINE PWA

Mobile-first field inspection product designed around offline capture, queued state, synchronization and touch-first workflows.

DESIGN

ToDo Mobile - Figma Concept

DESIGN RECORD / MOBILE UI

Product and interface design record covering mobile entry, authentication, task hierarchy and dashboard states. Presented explicitly as design evidence, not shipped code.

TEAM

ProFix Desk

NEEGLES / PRODUCT CONTRIBUTION

Contributed to repair operations, job states, invoices, technician assignment and supporting product workflows while working with the Neegles team.

TEAM

WordPress delivery contributions

NEEGLES / FOOTERA / CLICKGROWTH / REBCO / KESCREATIVE / BARISTA BUDDY

WordPress website delivery and iteration completed as part of the Neegles team, kept separate from independently owned personal builds.

MORE RECORDS

Trace / Clause / Bench / Ledgerly / Slot / Vault / Stamp / Nexora / Veloza / CSS Gallery / Orange Stores / MyGame / P2P Utility App / additional archive records.
